Event Hub - Sorrento Beach Surf Life Saving Club (SLSC)

- The event hub for the week will be at **Sorrento SLSC** under the **Shaw and Partners Marquee**, known as **TheHub**. WA Race Week Registration will take place here throughout the week. Please check the daily program within this document for times.
- If you have any questions during the week please come and see us at the event hub during these registration times.

WA Race Week Registration

- There are several opportunities throughout the week to register for the Shaw and Partners WA Race Week Events. You will see this listed on the day to day timings in this program. At this registration you will collect your **Shaw and Partners WA Race Week Pack** which will include everything you ordered online and most importantly your timing chip, race number tag and yellow race number sticker.
- You only need to attend one of the WA Race Week Registration times to register, however you must **CHECK-IN** to the start of each event at the start locations prior to the races - please see details below.

- **An important change from last year** - you will NOT be able to register at the event start locations for the Fenn West Coast Downwinder and the Dr Benjamin Hewitt Sunset Surf Ski Series. You must have pre-collected your timing chip and other items prior during the WA Race Week Registration times at TheHub. You can have a friend collect your pack if you can't make it. Only **check-in** will take place at the start locations.

Your Timing Chip, Blue Tag and Yellow Race Number Sticker

- You will be provided with **one timing chip and race number** to use for all the events. This is how we can identify you and collate WA Race Week points.
- Do not swap or use someone else's timing chip.
- If you are racing in a single for one race and a double for another, you will have different timing chips and race numbers.
- **Timing Chip** - You must wear the timing chip on your ankle for it to register when you run over the blue timing finish mat. Do not wear it anywhere else.
- **Blue Tag** - You will be provided with a blue tag that will have your race number on it (in most cases this will match your timing chip). Attach the tag to the front of your lifejacket. You can refer to the blue tag for your race number to be used when you **check-in** to the races. The tag also includes the Oceanpaddler mobile number, which is The Doctor Safety Number.
- **Yellow Race Number Sticker** - must be placed on the front left hand side of your craft so it is visible to water safety crews so we can identify you.
- Remember to bring your timing chip with you to each event. No timing chip = no time.
- If you lose your timing chip there is a \$50 replacement fee.
- Return your timing chip at the end of your last race. For most, this will be at The Doctor event where we will be collecting them as soon as you cross the line.
- For those that are not using the same craft for all events you will need to get a number for all your craft that must match your race number for that event. Please come and see us and we can provide additional yellow race numbers.

Tracking Devices (Used for the Fenn West Coast Downwinder and Doctor event only)

- For those racing in these two events you will be provided with a tracking device at registration. The tracking device needs to be placed in the back of your lifejacket and kept there for both those races.
- If you are doing both races we will collect the tracking device after The Doctor. If you are only doing the Fenn West Coast Downwinder please hand this back after the race.
- The tracking will only be activated during the race times.
- You must use the tracking devices for these two races as it is an integral part of our safety plans. If you don't, you will be disqualified.
- More info will be available soon regarding the tracking which will be visible to the public to watch.

Timing Chip	Blue Tag	Race Number Sticker	Tracking Device
Wear this on your ankle.	Attach to the front of your lifejacket.	Attach to the FRONT <u>LEFT</u> <u>HAND</u> SIDE of your craft.	Put this in the back of your lifejacket.
	 		

RACE CHECK-IN - YOU MUST DO THIS AT THE START OF EVERY RACE!

- When you arrive at the start of each event you must be '**checked-in**' to our timing system via the IPADS. You will see event staff with several IPADS and you must **check- in** by providing us with your race number.
- Refer to your blue tag on your lifejacket for your race number (in most cases this will match your timing chip number)
- For The Doctor, check-in will commence on the ferries going over to Rottnest Island and continue on the island.
- It is extremely important that you check-in to the races so we know who is racing in each event.
- No race Check-In = No race time or points.

SAFETY & EQUIPMENT

Your safety is our number one priority.

Equipment

- Please ensure you have the correct mandatory equipment.
- There will be scrutineering throughout the week and anyone that does not have the mandatory equipment will not be allowed to race and will be automatically disqualified.
- We have put a checklist together on the next page to assist.

Water Safety

- Please ensure you follow the instructions of the water safety officials at all times.
- The Doctor course is within the Fremantle Ports area and operations will not cease during the event.
- **Commercial shipping has the right of way at all times.**
- **You must not go within 300m** of any shipping vessel during The Doctor race or you will be disqualified.

The Doctor - Safety Equipment and Rules

- For more detailed information regarding the Rules and Equipment for The Doctor event please visit: <https://oceanpaddler.com/ocean-events/the-doctor/rules-equipment-the-doctor/>
- **The Event Safety Number for the Doctor event is 0422 554 965** - We recommend that you store the Oceanpaddler mobile in your phone. This number will also be on the Blue tag we provide you at registration.
- **PLEASE NOTE:** You will be given a separate event safety number on a wristband for the Fenn West Coast Downwinder and Sunset Surf Ski Series events. This will be provided at the race check-in prior to the start.
